

B. Amendment to the Abstract

Please amend the Abstract as follows:

~~--It is an object of this invention to obtain a high-accuracy foamed product with high productivity. To achieve this object, a~~ A ~~method of storing a material into which a gas saturates, before the material is foamed in a metal mold foam, while maintaining the gas saturated state is disclosed. The~~ This method stores a material into which a gas saturates is stored at a predetermined ambient pressure and predetermined ambient temperature to maintain a gas saturated state, thereby preventing escape of the gas from the material into which the gas saturates.--
